About SRG ○○○○

SRG prides itself on our relationship-oriented business model. By placing relationships first, we have been able to forge a lasting rapport with our consultants and hiring managers.

Our goal is to not only understand the positions we are working on for a client but to understand the company as a whole. We want to know the working environment, goals and vision of each organization to help us match the best possible consultants.

SRG recognizes the rapid pace and response time that is necessary to succeed in the Finance, Technology, Engineering, and Life Sciences fields. Our relentless pursuit of our customer's goals requires that every SRG team member has a healthy willingness to outwork and outperform the competition. Our goal is not to simply fill one position but to "*partner to make a difference*" and build a long term working relationship with all of our clients.

"Partnering to Make a Difference"

SRG Processes ○○○

Our goal is to reduce your "time to hire" by performing all of the due diligence up front.

Our screening process includes:

- In depth phone prescreening—prior to the first interview
- In person interview—we conduct a technical as well as a behavioral in person interview
- Technical testing—we use the "Kenexa Prove It!" skills assessment testing software
- Professional reference verification
- Criminal background checks
- Pre-employment drug screening
- Education & Certification verification

SRG Finance | **SRG Technology** | **SRG Engineering** | **SRG Life Sciences**

Our Mission ○○○

Our mission is to provide our clients with the highest level of service and flexibility to achieve total customer satisfaction.

Competitive Advantage ○○○

SRG Finance | **SRG Technology** | **SRG Engineering** | **SRG Life Sciences**

We represent pharmaceutical and biotechnology industry professionals with experience in these and related areas:

- Research & Development
- Quality Assurance
- Validation
- Regulatory Affairs
- Quality Control
- Toxicology / Virology
- Pharmacology
- Animal Science
- Method Development
- Formulations
- Medical Technologist
- Allied Health
- RN / LPN

Better Talent = Better Results ○○○

Through our strategic approach of specialization we can deliver solutions as individuals or teams to help with the development of Medical Devices, Biotech and Pharmaceuticals along with the compassionate care needed in the medical and clinical fields. We also apply our exact same stringent recruitment and screening process for our high level positions to all of our mid-level and manufacturing positions. This helps to ensure that we are getting you the best person we can find for the job, not the first person we find!

All of our staff are trained to know all of the different intricacies of each job and each job in each industry. We understand that not all chemists are the same just as we know that a Medical Technologist licensed in Chemistry is not going to be a fit for any other industry. When you work with us, you will get the right person the first time... again, Better Talent = Better Results.
